فناوری زیست محیطی ایران

سال اول، شماره ۱، بهار و تابستان ۱۳۹۴

شماره استاندارد بین المللی چاپی: ۲۴۲۳-۵۷۷۶

# Iranian Journal of Environmental Technology

1<sup>st</sup> Year, No. 1, Spring & Summer 2015

ISSN: 2423-5776

- ۱ شناسایی باکتری‌های تجزیه کننده نفتالین جدا شده از خلیج فارس و دریای خزر به عنوان عوامل حذف کننده نفتالین از محیط‌های آلوده  
سید مهدی قاسمی و منیژه رهبری
- ۲ بررسی اثر هیدروفوبیسیته بر روی تجزیه زیستی نفت خام توسط دو باکتری دریایی *Thalassolituus oleivorans* و *Alcanivorax borkumensis*  
مهدی حسن شاهیان و سیمون کاپلو
- ۳ مدل سازی مقایسه‌ای ساختار سه بعدی سوپراکسید دیسموتاز منگنز-آهن باکتری ژنوباکتر سویه *M21* (یک باکتری کاهنده آهن) و ویژگی‌های اتصال آن با بیس فتول-آ، آمینوتریازول و اتیلین دی‌اوره  
گیتی امتیازی و ابوالقاسم هدایتخواه
- ۴ پوشش شیشه با نانو کامپوزیت مس- روی اکسید با روش سل- ژل دکتر بلید برای تخریب اکسایشی پیشرفته پساب رنگ‌های نساجی  
محمد حسین حبیبی و بهاره کریمی
- ۵ رنگ زدایی نورکافتی و نورکافتی کاتالیزوری رنگ لاتز ویولت با استفاده از نانو تیتانیم دی‌اکسید: یک مطالعه سینتیکی  
مرتضی منتظرظهوری، آمنه ملک حسینی و شیوا جوهری
- ۶ رنگ زدایی نورکافتی رنگ دیرکت رد ۸۱ (۵-سولامین) با استفاده از روی اکسید نانو اندازه قرار داده شده روی بستر شیشه‌ای در اسیدیته خنثی، قلیایی و اتمسفرهای مختلف  
حمیدرضا ابراهیمی

- Characterization of naphthalene-degrading bacteria isolated from the Persian Gulf and the Caspian Sea as potential agents for naphthalene removal from polluted environments  
Seyed Mahdi Ghasemi and Manizheh Rahbari 1- 8
- Hydrophobicity effect on oil degradation by two marine bacterial strains *Alcanivorax borkumensis* and *Thalassolituus oleivorans*  
Mehdi Hassanshahian and Simone Cappello 9- 18
- Comparative modelling of 3D-structure of *Geobacter sp. M21* (a metal reducing bacteria) Mn-Fe superoxide dismutase and its binding properties with bisphenol-A, aminotriazole ...  
Giti Emtiazi and Abolghasem Hedayatkah 19- 30
- Doctor blade sol-gel deposition of a nano-composite copper-zinc oxide on borosilicate glass for advanced oxidative degradation of textile dye in water environment  
Mohammad Hossein Habibi and Bahareh Karimi 31- 38
- Photolytic and photocatalytic decolorization of Lauth's violet using nano-titanium dioxide: A kinetics study  
Morteza Montazerzohori, Ameneh Malekhoseini and Shiva Joohari 39- 48
- Photodecomposition of direct red 81 (5-solamin) by using nano sized zinc oxide deposited on glass beads in neutral and alkaline pH and various atmospheres  
Hamid Reza Ebrahimi 49- 54

سال اول، شماره ۱، بهار و تابستان ۱۳۹۴

## Editorial Board

Dr. Giti Emtiazi	Professor of Microbiology University of Isfahan, Iran	emtiazi@yahoo.com
Dr. Mohammad-mahdi Amin	Associate Professor of Environmental health Isfahan University of Medical Sciences, Iran	amin@hlth.mui.ac.ir
Dr. Abdolkhalegh Bordbar	Professor of Physical chemistry University of Isfahan, Iran	akbordbar@gmail.com
Dr. Seyed Mahdi Borghei	Professor of Environmental engineering Sharif University of Technology, Iran	mborghei@sina.sharif.edu
Dr. Amir Taebi harandi	Professor of Environmental engineering Isfahan University of Technology, Iran	amirth@cc.iut.ac.ir
Dr. Amir Rahimi	Associate Professor of Chemical engineering University of Isfahan, Iran	rahimi@eng.ui.ac.ir
Dr. Jahanbakhsh Raouf	Professor of Analytical chemistry University of Mazandaran, Iran	j.raouf@umz.ac.ir
Dr. Naser Taleb bidokhti	Professor of Civil engineering University of Shiraz, Iran	taleb@shirazu.ac.ir
Dr. Esmaeel Fatehifar	Associate Professor of Chemical engineering Sahand University of Technology, Iran	fatehifar@sut.ac.ir
Dr. Mehrdad Farhadian	Assistant Professor of Process engineering University of Isfahan, Iran	mehrdadfarhadian@yahoo.com
Dr. Iraj Nahvi	Professor of Biotechnology University of Isfahan, Iran	i.nahvi@sci.ui.ac.ir
Dr. Yadollah Yamini	Professor of Chemistry Tarbiat Modares University, Iran	yyamini@modares.ac.ir

## Author Submission Guidelines

*IJET* is an international journal seeks to publish papers that report results from original, novel research which addresses significant environmental and technology issues contributing new knowledge to science.

The editors encourage high quality papers where the pollutants related to measurement, control and source of pollutants. Papers with biological, ecological, and human health related in environment are preferred. This includes **air, water, wastewater, solid waste, soil pollution evaluation and control**. The application and introduction of novel technologies in the area of **nanotechnology, biotechnology and nanobiotechnology for the study and measurement of pollutants are also encouraged**. *IJET* provides a forum for the discussion of environmental problems and pollution control around the world and includes the following topics:

- Advanced technologies and processes for CO<sub>2</sub> capture
- Air pollution control systems and engineering
- Ambient air pollution control
- Biotechnology in environmental pollution
- Clean technologies
- Modeling in pollution emission, transportation and pollution control
- Nanobiotechnology in environmental pollution
- Biotechnology in environmental pollution
- Nanotechnology in environmental pollution
- New technologies for solid waste management
- Process modifications for pollution prevention
- Soil pollution and bioremediation
- Source controlling technologies
- Waste treatment and disposal
- Wastewater treatment by new technologies
- Water pollution and treatment processes
- Water reuse technologies

### 1- Submitting articles

- Registration in *IJET* electronic database and completing **Submission form** is required for submitting articles. *IJET* electronic database: <http://uijs.ui.ac.ir/ijet>
- The **Prerequisite form (cover letter)** should be completed and submitted.
- The author (s) should confirm that their manuscripts are original research and has not been published and is not under review elsewhere; Except for the abstracts presented at the Scientific Assembly (The papers presented at scientific meetings must be noted on the prerequisite form).
- Authors are responsible for the content of the article.
- **Editors are free** to make the final decision on whether to **accept or reject** a particular **manuscript**.
- Manuscripts will be subject to a pre-review and when the approval of the editorial is obtained, it will be published with respect to time.
- Use Microsoft Office Word 2007 in letter-sized paper (8½ × 11 inches) in one column.

## 2- Language & Authors' names

- Language: Please write your text only in good English (American or British usage is accepted, but not a mixture of these). Manuscripts should be well written and well organized with no grammatical deviation.
- Authors' names: Authors' names should be listed in the order they wish to appear. Change and handling the authors names, after setting out the outcome of reviews would not be possible.
- Where the family name may be ambiguous (e.g., a double name), please indicate this clearly. Present the authors' affiliation addresses (where the actual work was done).

**For example:** Mohammad hossein Habibi, Professor of environmental chemistry, University of Isfahan, mhhabibi@yahoo.com

Ali shahabi, MSc of Microbiology, Shahid Beheshti University, Tehran, Iran, cd@gmail.com

- Corresponding author: Clearly indicate who will handle correspondence at all stages of refereeing and publication.

## 3- Title, Abstracts, Keywords and Highlights

- Title: Concise and informative titles are often used in information-retrieval systems. Avoid abbreviations and formulae where possible.
- English abstract: The abstract should state briefly the purpose of the research, the principal results and major conclusions. An abstract is often presented separately from the article, so it must be able to stand alone. Abstracts of less than 300 words are required for all papers submitted.
- Farsi abstract: Translation of abstract to Persian is necessary. This abstract should be set similar to English one and containing the following sections. For foreign authors unfamiliar with Farsi, their abstracts will be translated by the language editor of the journal, free of charges.
- Graphical abstract: A Graphical abstract is optional and should summarize the contents of the article in a concise, pictorial form designed to capture the attention of a wide readership online. Authors must provide images that clearly represent the work described in the article. Graphical abstracts should be submitted as a separate file in the online submission system. Image size: Please provide an image with a minimum of 531 × 1328 pixels (h × w) or proportionally more. The image should be readable at a size of 5 × 13 cm using a regular screen resolution of 96 dpi. Preferred file types: MS Office files.
- key words: Up to 7 key words listed, in alphabetical order, after the abstract are required for indexing purposes.
- Highlights: Highlights are mandatory for this journal. They consist of a short collection of bullet points that convey the core findings of the article and should be inserted in the full article file, after **English abstract**. It should include 3 to 5 bullet points (maximum 85 characters).

## 4- Manuscript preparation

- Manuscripts should be compiled in the following order:

### **Introduction, Material and Method, Results, Discussion & Conclusion and References.**

**The Introduction section** should state the objectives of the work and provide an adequate background, avoiding a detailed literature survey or a summary of the results. It must include the rationale for the study, the investigators hypothesis and a clear statement of the purpose of the study.

**The Materials and methods section** should provide sufficient detail to allow the work to be reproduced. Methods already published should be indicated by a reference: only relevant modifications should be described.

**The result section** should provide data that are clearly and simply stated without discussion or conclusion. Tables and figures should be cited parenthetically. The same data should not be presented in both table and graph form or repeated in the text. Data should not be repeated unnecessarily in text, tables and figures.

**The discussion section** should explore the significance of the results of the work, not repeat them. Avoid extensive citations and discussion of published literature.

- Acknowledge (if required) should be at the end of the article before the references section.

#### 5- Tables, Figures, Diagrams, Photographs and Equations

- All tables, figures, diagrams and photographs should be numbered and have a title. The title of tables must be on top and below for the figures.
- If a figure or table is taken from another source, reference to the original table or figure should be provided and cited in the reference listed.
- Diagram should be set in one-dimensional format with black and white in color.
- For convenience of citation of equations, authors are encouraged to use Microsoft Word Equation 3.3. Plain sequential numbering through the manuscript is preferred and use the International System of Units (SI).
- **In Text Wrapping** setting select the format of images as **In line with text**.

#### 6- References

- All references should be translated in English and they are numbered consecutively in the order they are first used in the text
- All references cited in the text must appear in the reference list, and all references listed in the reference list must be cited in the text.
- Vancouver citation style must be applied for all manuscripts. A superscript number is inserted in your text at the point where you refer to (cite) your source of information. A consecutive number is allocated to each source as it is referred to for the first time. For more information regarding **ACS citation style** refer to Journal's web site.

#### **ACS (American Chemical Society) Style Guidelines (Quick Guide):**

##### **A: Citing References in the Body of a Paper**

References in the body of a paper can be cited *By number (italics)*. With numerical citations, references should be numbered sequentially. If a reference is repeated, do not give it another number; rather, use the original reference number.

Example: The synthesis of the compound has been described previously (1).

## B: Creating a Bibliography

- Arrange the references in your bibliography (at the end of the paper) numerically
- If a book as a whole is used, pagination is not necessary.
- It is necessary to use punctuation, *Italics* and **boldfaces** as the Style Guidelines.

<b>Book with Author(s)</b>	<p><b>Basic Format:</b> Author, A. A.; Author, B. B. <i>Book Title (italics)</i>, Edition (if any); Publisher: Place of Publication, Year; Pagination.</p> <p><b>Example:</b> Engel, R.; Cohen, J. I. <i>Synthesis of Carbon-Phosphorus Bonds: New Methods of Exploration</i>, 4th ed; CRC Press: Boca Raton, FL, 2004; pp 54-56</p>
<b>Book with Editor(s), and Entire Book is Referenced</b>	<p><b>Basic Format:</b> Editor, A. A.; Editor, B. B.; Editor, C. C., Eds.(necessary word) <i>Book Title (italics)</i>; Series Information (if any, including series number); Publisher: Place of Publication, Year.</p> <p><b>Example:</b> Lin, Q.; Pearson, R. A.; Hedrick, J. C., Eds. <i>Polymers for Microelectronics and Nanoelectronics</i>; ACS Symposium Series 874; American Chemical Society: Washington, DC, 2004.</p>
<b>Authored Chapters in a Book with Editor(s)</b>	<p><b>Basic Format:</b> Author, A. A.; Author, B. B. Chapter Title. In <i>Book Title (italics)</i>; Editor, A. A., Editor, B. B., Eds.; Series Information (if any, including series number); Publisher: Place of Publication, Year; Volume number (if any), Pagination.</p> <p><b>Example:</b> Downs, G. M.; Barnard, J. M. Clustering Methods and Their Uses in Computational Chemistry. In <i>Reviews in Computational Chemistry</i>; Wiley: Hoboken, NJ, 2002; Vol. 18, p 11</p>
<b>Encyclopedia Article</b>	<p><b>Basic Format:</b> Article Title. <i>Encyclopedia Name (italics)</i>, Edition number; Publisher: Place of Publication, Year; Volume Number, Pagination.</p> <p><b>Example:</b> Psychopharmacological Agents. <i>Kirk-Othmer Encyclopedia of Chemical Technology</i>, 4th ed.; Wiley: New York, 1996; Vol. 20, pp 455-457.</p>
<b>Handbooks</b>	<p><b>Basic Format:</b> Editor, A. A., Editor, B. B., Eds. <i>Handbook Title (italics)</i>, Edition number [Online]. (necessary word if online); Publisher: Place of Publication, Year; Pagination or other identifying information.</p> <p><b>Example:</b> Budavari, S., O'Neil, M. J., Smith, A., Heckelman, P. E., Kinneary, J. F., Eds. <i>The Merck Index: An Encyclopedia of Chemicals, Drugs, and Biologicals</i>, 13th ed. [Online]; Merck &amp; Company: Whitehouse Station, NJ, 2001; entry 5066.</p>
<b>Journal Articles</b>	<p><b>Basic Format:</b> Author, A. A.; Author, B. B.; Author, C. C. Title of Article. <i>Journal Abbreviation (italics)</i> [Online] . (necessary word if online)<b>Year (boldface)</b>, <i>Volume (italics)</i>, Pagination.</p> <p><b>Example:</b> Borman, S. Protein Sequencing For The Masses. <i>Chem. Eng. News</i> [Online] <b>2004</b>, 82, pp 22-23.</p>
<b>Newspapers</b>	<p><b>Basic Format:</b> Last name, First Name; Last Name, First Name. Article Title. <i>Newspaper Title (italics)</i>, Complete Date, Pagination.</p> <p><b>Example:</b> Jones, Margot. Panel Urges NASA to Save Hubble Space Telescope. <i>New York Times</i>, July 16, 2004, p A1.</p>
<b>Websites</b>	<p><b>Basic Format:</b> Author, A. A. (if any). Title of Site. URL (accessed date), other identifying information. (No need to include URL of subscription sites).</p> <p><b>Example:</b> ChemFinder.Com. <a href="http://chemfinder.cambridgesoft.com">http://chemfinder.cambridgesoft.com</a> (accessed July 14, 2004). The Combined Chemical Dictionary database, web version 2004 (1); CRC Press: Boca Raton: FL (accessed July 16, 2004).</p>

Table of contents

■	<b>Characterization of naphthalene-degrading bacteria isolated from the Persian Gulf and the Caspian Sea as potential agents for naphthalene removal from polluted environments</b>	<b>1- 8</b>
	Seyed Mahdi Ghasemi and Manizheh Rahbari	
■	<b>Hydrophobicity effect on oil degradation by two marine bacterial strains <i>Alcanivorax borkumensis</i> and <i>Thalassolituus oleivorans</i></b>	<b>9- 18</b>
	Mehdi Hassanshahian and Simone Cappello	
■	<b>Comparative modelling of 3D-structure of <i>Geobacter sp. M21</i> (a metal reducing bacteria) Mn-Fe superoxide dismutase and its binding properties with bisphenol-A, aminotriazole and ethylene-diurea</b>	<b>19- 30</b>
	Giti Emtiazi and Abolghasem Hedayatkah	
■	<b>Doctor blade sol-gel deposition of a nano-composite copper-zinc oxide on borosilicate glass for advanced oxidative degradation of textile dye in water environment</b>	<b>31- 38</b>
	Mohammad Hossein Habibi and Bahareh Karimi	
■	<b>Photolytic and photocatalytic decolorization of Lauth's violet using nano-titanium dioxide: A kinetics study</b>	<b>39- 48</b>

## فهرست مطالب

- ۱ ■ شناسایی باکتری‌های تجزیه کننده نفتالین جدا شده از خلیج فارس و دریای خزر به عنوان عوامل حذف کننده نفتالین از محیط‌های آلوده  
سید مهدی قاسمی و منیژه رهبری
- ۲ ■ بررسی اثر هیدروفوبیسیتنه بر روی تجزیه زیستی نفت خام توسط دو باکتری دریایی *Thalassolituus oleivorans* و *Alcanivorax borkumensis*  
مهدی حسن شاهیان و سیمون کاپلو
- ۳ ■ مدل‌سازی مقایسه‌ای ساختار سه بعدی سوپراکسید دیسموتاز منگنز-آهن باکتری ژئوباکتر سویه M21 (یک باکتری کاهنده آهن) و ویژگی‌های اتصال آن با بیس فنول-آ، آمینوتریازول و اتیلین دی‌اوره  
گیتی امتیازی و ابوالقاسم هدایت‌خواه
- ۴ ■ پوشش شیشه با نانو کامپوزیت مس- روی اکسید با روش سل- ژل دکتر بلید برای تخریب اکسایشی پیشرفته پساب رنگ‌های نساجی  
محمد حسین حبیبی و بهاره کریمی
- ۵ ■ رنگ زدایی نورکافتی و نورکافتی کاتالیزوری رنگ لاتز ویولت با استفاده از نانو تیتانیوم دی‌اکسید: یک مطالعه سینتیکی  
مرتضی منتظرظهوری، آمنه ملک حسینی و شیوا جوهری
- ۶ ■ رنگ زدایی نورکافتی رنگ دیرکت رد ۸۱ (۵-سولامین) با استفاده از روی اکسید نانو اندازه قرار داده شده روی بستر شیشه‌ای در اسیدپته خنثی، قلیایی و اتمسفرهای مختلف  
حمیدرضا ابراهیمی
